For Attention: HOD Mathematics

Greetings Colleague

The GMMDC at Nelson Mandela University, in partnership with Proverto, is offering the following opportunity to your learners again in 2022:

MobiTutorZA Mathematics Competition

First Round 17 August 2022; Second Round 13 October 2022, (by invitation).

Entry R30. Entries close 1 August.

The Competition is done on the MobiTutorZA app on Android phones. All content is carefully selected to be curriculum aligned and is intended to be accessible to all competent learners.

Further details of how to enter, how to get the app and technical support details can be found in the attached flyer, which can also be printed out as a poster for display in your school.

The MobiTutorZA app also has a full set of self-assessments and learning material for all topics and all grades for Mathematics and Physical Sciences. This curriculum support service is offered free of charge to all learners in the country. There is also a Grade 12 Mathematics Exam Revision programme which will be promoted in further communication to your school.

If you have any queries about the Competition or associated resources, you are more than welcome to email me (philip.collett@mandela.ac.za) or to call on 0823794883.

Please feel free to forward this communication to colleagues at other schools. We will appreciate your assistance in spreading the word.

Best Regards

Dr Philip Collett

Project Manager

NELSON MANDELA
UNIVERSITY

MobiTutorZA
